Doug and Sherry Lawrence sent out the original "If I Had...", which was the inspiration for this work, and attached the following...

"It is important to know that when starting any wellness program we recommend that all customers and members start with the Paraway Pack (3 months), and Cleanse Pack (2 weeks). So, in reviewing the list be sure to know that these products are not listed in all places because it is a given that these 2 products should be considered before starting any program. We have all learned over the years ... the importance of getting the body in balance."

We at www.UnicityPinoy.com and www.IFiHAD.net hope that this work, which is still in progress, will be a benefit to you.

Best regards, aLan Tait
